UNDERGROUND FIBERGLASS WATER TANKS

Our Fiberglass Water Tanks

Nationwide Tanks is proud to contribute to the efforts of water conservation by producing tanks that are maintenance and corrosion free. Fiberglass tanks are lightweight, therefore easily transported to the customer's location, and designed for efficient and quick installation. Ensuring a low cost, long life solution, we provide the industry with exceptional quality fiberglass tanks and dedicated customer service.

Nationwide's underground fiberglass water tanks are tailored to industry needs, meeting AWWA D120, NFPA 22, NSF 61 standards as required. We customize tanks based on project specifics, including water type, chemical concentrations, and operational conditions. Our experts analyze data to select the right resin and design, ensuring optimal performance and durability. Utilizing cutting-edge technology, our tanks are corrosion-resistant, lightweight, and watertight, offering a longer life-cycle compared to concrete or steel. Available in diameters of 8', 10', and 12', ranging from 5,000 to 50,000 gallons.

Benefits of our *Helical Armor Tank™*

- Non-corrosive, will not rust like steel
- *Dynamic Band™* Technology
- Durable, strong, lightweight and watertight
- High tensile strength and flexibility, will not crack like concrete
- Underground design saves space, allows for some insulating properties, removes aesthetic problems of an above ground tank
- Custom-designed per project criteria
- H2O structural design available
- Multi-purpose use for emergency potable water and fire suppression; rainwater and irrigation

Types of Water Tanks

- Fire Suppression tanks
- Potable Water tanks
- Rainwater tanks
- Irrigation tanks
- Stormwater tanks
- Waste Water tanks

8' DIAMETER NON-TRAFFIC RATED WATER

Nominal Capacity [US Gallons]	Water Volume [US Gallons]	Total Length [Feet]	Weight [lbm]	Number of Straps [Total Quantity]
5,000	5,580	17' 6"	3,900	2
7,000	6,710	20' 6"	4,100	2
8,000	7,840	23' 6"	4,400	2
10,000	10,084	29' 6"	4,800	2
12,000	12,343	36' 3"	5,400	2
15,000	14,602	42' 6"	5,700	4
18,000	17,991	50' 3"	6,600	4
20,000	20,242	54' 6"	7,100	4

10' DIAMETER NON-TRAFFIC RATED WATER

10,000	9,500	19' 6"	4,700	2
13,000	13,016	25' 6"	5,100	2
15,000	14,782	28' 6"	5,700	2
18,000	18,305	34' 6"	6,700	4
20,000	20,063	37' 6"	7,200	4
25,000	25,351	46' 6"	8,100	4
28,000	27,611	49' 6"	8,300	6
30,000	29,369	55' 6"	8,700	6
34,000	34,171	62' 6"	10,600	6
40,000	40,135	73' 3"	13,400	6

12' diameters available upon request.

Company History

Nationwide Tanks, a leading North American manufacturer, specializes in composite fiberglass tanks for water collection, protection, and recycling. Our dedicated team of engineers, specialists, chemists, and managers ensures excellence in design and manufacturing, adhering to stringent standards. We prioritize continuous improvement, offering top-notch engineering, advanced technology, rigorous quality control, competitive lead times, cost-effective pricing, and exceptional service.

Common Accessories

- 24", 30", 36" bolted manways
- 24", 30", 36" access manway openings
- Flat faced flanges
- Threaded couplings
- Gooseneck vents
- Vent/level assemblies
- Dry hydrants
- Sanitary Tees
- Baffle walls
- Pump platforms
- Internal ladders
- FRP straps and turnbuckle assembly
- Concrete Deadman
